plant inspired remedies

BUZZ GUARD[®]

protect • soothe

Because dogs savor the world through scent, we make gently aromatic plant-inspired remedies that comfort dogs and their humans without overwhelming their sensibilities.

Buzz Guard[®] helps protect skin from biting insects & soothe irritated skin after outdoor adventures so you can play more and worry less in all seasons, anytime of day or night:

- Walking, hiking, cycling
- Camping, boating
- Dog sports training
- Competitions, festivals

Why dog lovers and professionals recommend Buzz Guard[®]:

- Natural alternative to spot-on treatments
- Made in the USA with 100% plant-derived ingredients
- Safe for canine, equine & human use after 10 weeks of age
- Responsibly formulated by one of the pet industry's most experienced aromatherapists

Active ingredients have been tested as insect repellents:

- Cedrus Atlantica (Cedarwood)
- Pelargonium graveolens (Geranium)

Water-based spray is now made with a sunflower-honeysuckle preservative system:

- Before outdoor adventures, spray several mists onto your hands & massage dog's outer ears, back of head, abdomen, legs & tail; repeat as needed, especially if the dog gets wet
- Spray surrounding play areas & bedding; repeat as needed
- After your adventure has ended, spray irritated skin, and repeat as needed
- Choose the 2 oz. bottle for travel, and the 8 oz. bottles to use at home, in the kennel or stable

Roll-on base of coconut oil absorbs quickly, doesn't stain or leave sticky residues & has a long shelf-life:

- Before outdoor adventures, roll onto fingertips and apply to ears, legs, tail, chest, muzzle; repeat as needed, especially if the dog gets wet
- After adventures, roll onto irritated skin; reapply as needed

Precautions: For external use only. Keep out of eyes and ears. Store away from heat and direct sunlight. Keep out of reach of children and pets. Not recommended for use with cats, birds, fish, reptiles or rodents. MSDS available on request.

These products have not been evaluated by the U.S. FDA, and are not intend to diagnose, treat, cure or prevent any disease, nor intended to replace proper medical or veterinary treatment.
