

Aromatherapy is the skilled and controlled use of essential oils by therapeutic inhalation and topical application to restore or maintain health and well-being.

Essential oils are the volatile oils from the rind, flower, leaf, bark, root, or resin of aromatic plants that are released via steam distillation, cold expression, and CO2 or solvent extraction. Essential oils are highly concentrated, and must be diluted before using to prevent overwhelming your dog's sense of smell or sensitizing the skin.

Dogs respond well to scent and touch. Proper use of essential oils can help create a calm environment, soothe itchy or irritated skin, quiet digestive upsets, repel insects, create a bonding experience, promote positive behavior modification, and improve health.

About Earth Heart

Vicki Rae Thorne, Earth Heart® Inc. Founder & Owner Certified Practitioner: Herbalism, Aromatherapy, Reiki, Holistic Cannabis

It was love at first smell when I attended my first aromatherapy intensive in 1992. Diagnosed with fibromyalgia 4 years earlier, I was inspired to make remedies for my constant pain and stress. Because I was pregnant and had a five-year-old, I wanted everything to be safe for my entire family, and I've applied that same level of responsibility to formulating for dogs.

I founded Earth Heart® in 1996 to help others learn how to safely and effectively use herbs and essential oils as part of everyday life. Exploitation of plant habitats and indigenous economies, and increasing misinformation about aromatherapy, led to my philosophy of Responsible Aromatherapy™ as the basis of ingredient sourcing, customer education, use and safety practices.

Canine Calm® can relax and comfort dogs during thunderstorms, fireworks, boarding, grooming, training, adoption, crating, hospice or clinic visits.

Because dogs savor the world through scent, we make gently aromatic plant-inspired remedies that comfort dogs and their humans without overwhelming their sensibilities.

Buzz Guard® helps you play more and worry less with natural insect protection that can soothe irritated skin when your outdoor adventures have ended.

GUARD WELL®

first aid · wellness

Guard Well® is a must-have in your first aid and wellness kit to help soothe cuts, scrapes, scratches, hot spots, yeasty ears, sneezing, dry skin or itching.

TRAVEL CALM®

Travel Calm® can help travelers unwind from fear of confinement or movement, and settle restlessness, drooling, panting, whimpering nausea or vomiting.
